Discover mobile photography and storytelling

About PiB

Photography in Brisbane is a newly established company that helps people, communities and companies discover, explore and share their stories in images. We use elements of storytelling to visually explore the hidden worlds around us.

We use elements of storytelling and mobile photography to share stories. We aim to foster an artistically thriving society and help Brisbanites develop the creative storytelling skills they need to build it.

Meetups

Third Sunday of the month
4.30 - 6.00 pm
The Edge, South Bank

Everyone has a smartphone and everyone has a story to tell. We want to enable Brisbanites to tell their stories and share their experiences. Photography has the power to connect and allows for meaning to be conveyed beyond words and, in this way, is a very inclusive form of art. Through a series of mobile photography and storytelling meetups we want to share, connect and communicate the view different communities have of Brisbane. These meetups will commence November the 19th, at The Edge in South Bank and run every third Sunday of the month from 4.30 pm to 6 pm until April.

The meetups are free, open to all members of the public and inclusive - anyone can join by simply signing up on [Eventbrite](#). Participants are free also to join for the subjects they are most interested in: a detailed overview of the meetups can be found on the next page

At the end of the series, in April we will exhibit works that will have been developed through these meetups. A jury will select the exhibited pieces. The exhibition will open on Thursday the 26th of April at the Richard Randall Art Studio and run through to Sunday the 29th of April, with selected activities and workshops.

**Be part of this exciting journey and
help us spread the word so that
we can explore the stories that surround us together !**
